

From: Mark Gitter
To: Mike Powell
Date: Mon, Jan 27, 2003 5:27 PM
Subject: UNE-P

Dear Mr. Powell,

I am the CFO of nii communications headquartered in San Antonio, Texas. I, like many of those in telecom, have worked extremely hard building a successful small business that survived the difficult times during the telecom meltdown. Although we haven't turned a profit since our inception, we are now on the cusp of cash flow positive. We provide our 9,000 customers with a competitive, well priced alternative to SBC in our Texas and Oklahoma markets. We have satisfied our lender's requirements and have NOT been a drain on the bankruptcy courts or the economy. In short, we've provided over 100 new jobs and did our part to stimulate economic growth through the UNE-P business model.

Although we'll never claim the successes of the baby bells or even get half their size, our company will provide a good income to our 80 plus employees and some decent returns to our key employees and investors. What you are proposing to do with UNE-P will negatively impact many hard working small business owners, their investors and employees. Please don't destroy what we've all worked so hard to accomplish. Vote to keep UNE-P as a viable alternative to monopolistic telecommunication services. After all, UNE-P has faces behind the name.

Sincerely,

Mark J. Gitter
VP & CFO
nii communications

The Federal Communications Commission is considering taking actions that will restrict consumer choice by deregulating local phone service.

Millions of Americans like me could have their phone service threatened if the local phone companies aren't required to allow competitors access to the market. I'm also concerned about the Commission's move to relieve all broadband Internet access facilities of open access obligations.

Both of these key decisions will limit my choices as a consumer by lessening competition, diminishing cost savings and threatening consumer protections. As a constituent, I urge you to support competition and open access for local phone service.

Sincerely,

Marshall F. Goldberg, MD
